***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by WO 98/15813.

See the appropriate paragraph of paper 5.

***Response to Arguments***

Applicant's arguments filed 3/14/03 have been fully considered but they are not persuasive.

Applicants' amendments to clarify the claim language are appreciated and have overcome the 35 USC 112-second paragraph issues. However, in claim 1 line 6, it appears "or" should be deleted.

Applicants' reference to the specification defining what is intended by "adsorbate" is appreciated. The Office also notes page 11 line 10 specifies the adsorbate may be liquid or gas phase.

Applicants state WO 98/15813 fails to teach contacting the solids with an adsorbate and monitoring changed in radiation. WO 98/15813 teaches exposing at least one reactant gas to the solid surface (e.g. see claim 1) during the monitoring of infrared emissions. This has been read on the claimed contacting an adsorbate and measuring the emitted radiation.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1743

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
